

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL MEMORANDUM

SB 1587 – HB 1485

March 31, 2014

SUMMARY OF ORIGINAL BILL: Authorizes, subject to approval by the local legislative body, any local government to contract for the clearing of any fords of rivers where a public road crosses the ford. Removes the requirement the county legislative body report to the county mayor a list of fords that need clearing and removes the requirement the county sheriff advertise that contracts will be given to bidders. Requires any contractor hired to clear a ford to certify to the local legislative body of a county or municipality under oath that the contractor has complied with all requirements for clearing of a ford, and requires the local legislative body to ensure the fords are cleared of all loose rock and obstructions.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

Increase State Expenditures – \$5,400/One-Time/Highway Fund

Other Fiscal Impact – Not Significant to State and Local Government – However, to the extent that non-state funds are received from a local government, there will be a one-time, permissive increase in local government expenditures of \$300 per section, with the exception of Section 22 which would result in a one-time, permissive increase in local government expenditures of \$600 as it designates two bridges, and Section 7 which would result in a one-time, permissive increase in local government expenditures of \$7,050 for 47 signs, for a maximum one-time, permissive increase in local government expenditures of \$18,200.

Assumptions for the bill as amended:

- The cost to manufacture and erect two signs at \$150 each is \$300.
- The fiscal impact for Section 1, subsections (a) through (r) is estimated to be a one-time increase in state expenditures of \$300 per subsection, for a total one-time increase in state expenditures of \$5,400 (\$300 x 18).
- The fiscal impact for Sections 2 through 6, 8 through 21, and 23 through 38, is not significant to state and local government, unless non-state funds are received from a local government, in which case there will be a one-time, permissive increase in local government expenditures of \$300 per section.
- Section 7 would, according to TDOT, result in a one-time, permissive increase in local government expenditures of \$7,050, if funds are received from a local government, as TDOT would install signs on State Route 1, at each of the 47 locations where the highway entered a county (\$150 x 47). Most of the segments of State Route 1 are already named, but TDOT would not remove old signs unless specifically instructed to do so in the bill.
- Section 22 which would result in a one-time, permissive increase in local government expenditures of \$600, if funds are received from a local government, as it designates two bridges.
- The maximum one-time, permissive increase in local government expenditures for these sections, to the extent that non-state funds are received from a local government, is estimated to be \$18,150 [(\$300 x 35) + \$600 + \$7,050].
